

The chart displays two time series from 2017 to 2021. The x-axis represents years, with labels for 2017, 2018, 2019, 2020, and 2021. The y-axis represents values, with horizontal grid lines at intervals of 10, ranging from 0 to 100. The blue line represents the 'Predicted (validation)' data, and the black line represents the 'Actual Timeseries' data. Both series show a strong seasonal pattern with annual peaks and troughs. The predicted values closely track the actual values throughout the period.

Year	Actual Timeseries (Approx.)	Predicted (validation) (Approx.)
2017	85	80
2018	88	82
2019	90	85
2020	92	88
2021	95	90
