

The chart displays two time series: 'Predicted (validation)' (blue line) and 'Actual Timeseries' (dark blue line). The x-axis represents time, with labels at -01, -07, -01, -07, -01, -07, -01, and -07. The y-axis represents values, with horizontal grid lines at intervals of 10, ranging from 0 to 100. The predicted values start at approximately 95 and decrease to about 80. The actual values start at approximately 85 and decrease to about 60.

Time	Predicted (validation)	Actual Timeseries
-01	95	85
-07	94	84
-01	93	83
-07	92	82
-01	91	81
-07	90	80
-01	89	79
-07	88	78
-01	87	77
-07	86	76
-01	85	75
-07	84	74
-01	83	73
-07	82	72
-01	81	71
-07	80	70
