

The chart displays two time series: 'Predicted (validation)' (blue line) and 'Actual Timeseries' (black line). The x-axis represents time steps from -10 to 0, and the y-axis represents values from 0.0 to 1.0. Both series show a general downward trend, with the predicted series closely following the actual series. The predicted series is slightly higher than the actual series in the middle section (around time step -5).
